The European Network on HIV/AIDS, TB and Hepatitis C (ERNA) board meeting, with its President Mauro Patti, was held in Budapest on January 29 2024, in the Regional Office of the International International Federation of Red Cross and Red Crescent Societies. After nearly 30 years, ERNA remains one of the most highly regarded Red Cross and Red Crescent networks, coordinating the National Societies of Europe and Central Asia on HIV/AIDS, Hepatitis, Tuberculosis, and Substance Abuse activities through campaigns and community-based services, that facilitate access to care for the most vulnerable individuals. Massimo Barra attended the Board meeting, as Honorary President, together with representatives of the Italian Red Cross, Spanish Red Cross and IFRC officers to build a work plan for the coming years.
